

COMPATTA

Small size, great performances

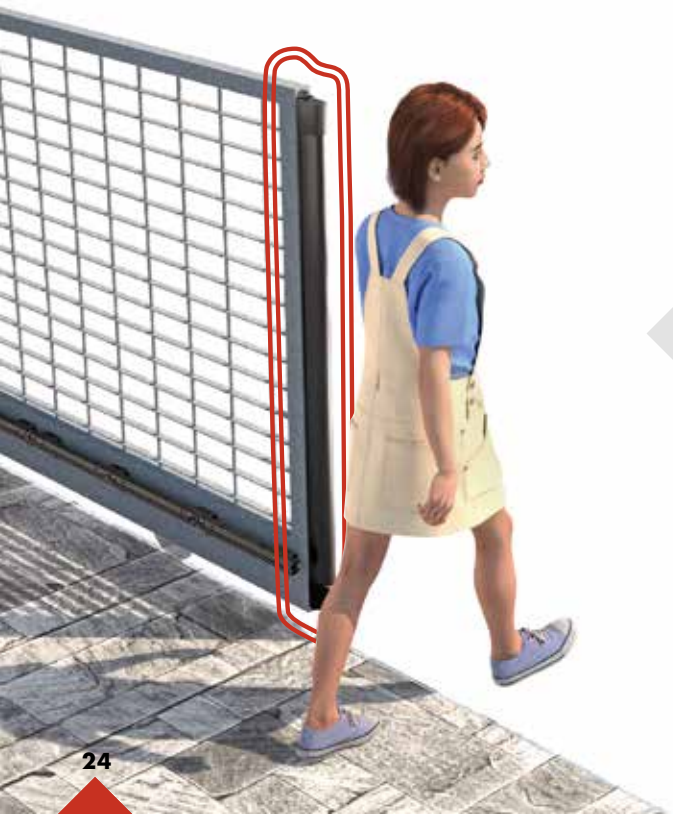

Ideale per cancelli scorrevoli leggeri e a battente, COMPATTA è un bordo sensibile piccolo e discreto, facile da installare ed accorciare. Utilizza un sistema a microinterruttori stagni con risposta rapida agli impatti su tutta la lunghezza della struttura.

Ideal for light sliding gates or swing gates, COMPATTA is a small and discreet safety edge, easy to install and cut down to size. It uses IP67 microswitches with quick response to every impact on all structure's length.

Idéale pour les portails coulissants légers ou battants, COMPATTA est un bord sensible petit et discret, facile à installer et à raccourcir. Il utilise un système à micro interrupteurs étanches avec une réponse rapide aux impacts sur toute la longueur de la structure.

COMPATTA ist eine kleine und diskrete Kontaktleiste, die einfach zu verlegen und abzulängen ist. Sie eignet sich ideal für Schwenk- und Schiebetore. Sie arbeitet mit einem System dichter und schnell auf jeden Stoß an jeder Stelle des Profils reagierender Mikroschalter.

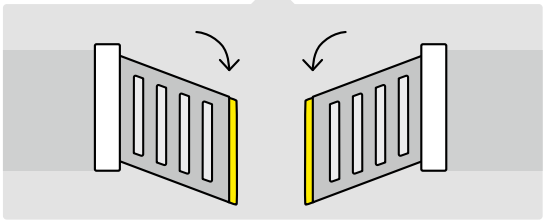

Ideal para puertas correderas ligeras y de hoja batiente, COMPATTA es un borde sensible pequeño y discreto, fácil de instalar y recortar. Utiliza un sistema de microinterruptores estancos que ofrecen una respuesta rápida a los choques a lo largo de toda la estructura.

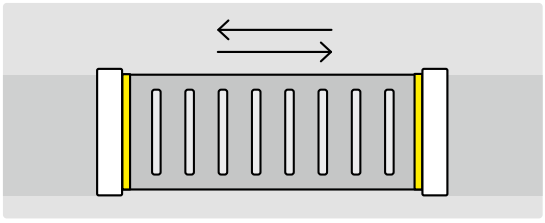

TOTAL SAFETY

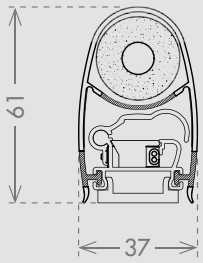

Safety guaranteed on all border's lenght, including endcaps.
