IT Il profilo più stretto disponibile, studiato principalmente per la porta pivot e la porta scorrevole e non solo. La guarnizione in silicone ed i meccanismi soft offrono la perfetta combinazione per le applicazioni speciali.

DE Die dünnste Falldichtung von uns, hauptsächlich für die Installation an Drehtüren oder Schiebetüren, aber nicht nur. Die weiche Silikondichtung und die leichtgängigen Mechanismen bilden die perfekte Kombination für spezielle Anwendungen.

FR Le profil le plus fin de notre gamme, principalement étudié pour les portes pivot et les coulissantes, mais pas uniquement. Le joint en silicone et les mécanismes soft offrent la combinaison parfaite pour les applications spéciales.

ES El perfil más estrecho que estrecho que ofrecemos, diseñado principalmente para puertas pivotantes o correderas, pero no solo. La junta de silicona y los mecanismos blandos ofrecen la combinación perfecta para aplicaciones especiales.

RU Мы предлагаем более узкий профиль, в основном предназначенный для распашных или раздвижных дверей, но не только. Силиконовая прокладка и мягкие механизмы идеально подходят для особых случаев.
